About WithX Partners

With X Partners (“WXP”) is an independent private equity firm primarily focused on investments in Japanese mid-sized and small enterprises. The firm was established by professionals with extensive investment experience and a proven, repeatable investment approach.

With X Partners’ mission is to achieve transformation and growth at its investee companies—and ultimately sustainable long-term value creation—through hands-on engagement. The firm provides multi-faceted management support, including business transformation, organizational revitalization, governance enhancement, operational support, and improvements in management efficiency.

The firm has identified consumer and retail, B2B services, and healthcare and wellness as its three core investment focus areas. Within the consumer sector, With X Partners leverages collaborations with operating companies to enhance value through marketing and branding, channel development, merchandise planning and management, and consumer-oriented product and service development. Through these initiatives, the firm seeks to drive effective value creation that goes beyond capital provision alone.
